Letter of Transmittal

June 2, 2011

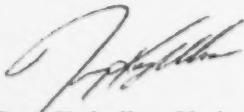

The Honourable Don McMorris
Minister of Health
Province of Saskatchewan

Dear Mr. McMorris:

The Sunrise Regional Health Authority is pleased to provide you and the residents of the health region with its 2010-2011 Annual Report.

The report provides the Board approved audited financial statements of the region for the year ended March 31, 2011. The report also outlines the region's activities and accomplishments for the period. We are pleased in this report to provide indicators of our performance taken from our "Balanced Score Card", which one of our performance matrices that was developed in 2010. The "Balanced Score Card" and our "Strategic Planning Progress Update" monitored throughout the year by the Sunrise Regional Health Authority measure progress in achieving goals set out in our "2010-2013 Strategic Plan". Our Strategic Plan integrates all of the targets for our health region from the Ministry of Health's "Accountability Documents" and the "Strategic and Operational Direction" for the provincial health sector.

Respectfully submitted,

Greg Kobylka, Chairperson
Sunrise Regional Health Authority

Who We Are

Sunrise Health Region is one of 13 health regions in the Province of Saskatchewan, guided by specific directions in the Accountability Document for the prudent and ethical use of public funds. The mission of the Sunrise Health Region is *to improve the health and well-being of individuals and communities through leadership, collaboration and the provision of high quality health services.*

The Sunrise Regional Health Authority uses the operating name Sunrise Health Region for most purposes, except in reference to the Board.

In support of this mission, our board, management, staff, volunteers and physicians strive to abide by the values of:

Collaboration...

We act as one united team providing the best care possible

Courage...

We act courageously in relentless pursuit of safety and excellence

Compassionate and Caring...

We listen to customers and then act and deliver services with compassion, care and respect

Creativity...

We strive for innovation

Commitment...

We commit to integrity, honesty and accountability

The mission and values of the health region are devoted to achieving our long-term vision: ***Working together... for healthy people in healthy communities.***

The Sunrise Regional Health Authority provides staff with direction in the form of board-approved strategic goals.

In 2010-11 the strategic goals of Sunrise Health Region were:

Goal #1 – **Health of the Individual**

Goal #2 – **Health of the Population**

Goal #3 – **Providers**

Goal #4 – **Sustainability**

Annual Report Overview

Staff members from throughout the health region support development of the Strategic Plan and add to the strategic goals objectives, key initiatives and performance measures. The Strategic Plan guides development of annual operational plans for all portfolios. Action plans further align our departments and programs. The Board received monitoring reports throughout the year to track strategic execution.

CEO (interim) Suann Laurent developed two new monitoring tools in 2010, the “Balanced Scorecard” and “Strategic Planning Progress Update” reports to track alignment and course correction towards the targets set out in the health region’s “2010-2013 Strategic Plan” and in the Ministry of Health “Accountability Document” and “Strategic Operational Directions”. The indicators shown in the 2010-11 Annual Report are taken from these monitoring tools.

Accountability Document

Each year the Saskatchewan Ministry of Health issues a health-region-specific Accountability Document, which provides provincial direction, performance expectations, and the accountability framework that regional health authorities (RHAs) follow for the upcoming fiscal year.

Provincial Strategic Operational Directions and Pillars of Health Planning

Strategically, the Ministry of Health is building the future of the health system on five health planning pillars:

- Health of the Individual
- Health of the Population
- Providers
- Sustainability
- Supportive Processes

The Ministry of Health Strategic Operational Direction is available on the government website: www.health.gov.sk.ca/strategic-direction.

Strategic Plan 2010-2013

In 2010, Sunrise Regional Health Authority approved the 2010-2013 Strategic Plan and adopted the provincial health planning pillars as our goals.

Our People and Services

In 2010-11, the Sunrise Health Region provided health services to the residents of 49 cities, towns and villages, 28 rural municipalities, and three First Nations in east central Saskatchewan – approximately 56,807 Saskatchewan residents in total.

As of March 31, 2011, the health region employed 2,847 staff members who provide and support health care through community-based services and within our 22 facilities. The region’s head offices are located in the city of Yorkton, which is the largest and the most central community in the region and is the location of the regional health centre.

In 2010-11, the health region celebrated a new service, the Integrated Stroke Strategy, a pilot project initiated by the Heart & Stroke Foundation of Saskatchewan and funded by the Province of Saskatchewan. The strategy builds on evidence based practice for optimum stroke prevention and aftercare. The core elements of the strategy include:

- Health promotion and prevention - preventing a first stroke and working with people who experience a mini-stroke (Transient Ischemic Attack) to help avoid a full stroke
- Pre-hospital and emergency care
- Acute care and treatment
- Stroke rehabilitation
- Secondary stroke prevention – strategies to prevent the recurrence of stroke
- Community re-engagement

Services provided throughout the health region population include a comprehensive range of health prevention/promotion, acute, supportive and rehabilitative services, located in institutions, communities and people's homes. Below is a sampling of service volumes provided by Sunrise Health Region in 2010-11:

- 19,983 immunizations provided in 2010 (including influenza vaccine)
- 289 early visiting program initial home visits done in 2010
- 1,177 clients seen in international travel clinics in 2010-2011
- 96 public water supply inspections
- 963 premises inspections by public health inspection
- 274 plumbing inspections (urban and rural)
- 51 rural private sewage system inspections
- 150 animal bites followed up by public health
- 29,415 hours of home care nursing service
- 110,262 hours of home care support, personal care and "meals on wheels"
- 22,568 outpatient physiotherapy, occupational therapy and speech language therapy visits
- 13,254 inpatient physiotherapy, occupational therapy and speech language therapy visits
- 980,490 sq meters of health care facilities cleaned and maintained each day
- Nearly 3.4 million pounds of laundry were washed, dried and folded in 2010-11
- 3,980 surgeries were performed
- 75,929 emergency room visits occurred in 2010-11
- 47,117 x-ray exams and 6,868 mammography exams
- 6,660 emergency response calls
- 13,741 mental health visits, excluding psychiatry and addictions
- 718 newborns were delivered

Our Health Partners

Health Care partnerships with the following health care organizations greatly assist Sunrise Health Region in addressing its goals.

KidsFirst

KidsFirst is an early childhood development program, intended to provide vulnerable children with the best possible start in life, and to encourage nurturing and supportive well-functioning families and communities. KidsFirst provides home visiting services, early learning and child care spaces, mental health and addiction counseling, and other supports to families in need. Sunrise Health Region provides KidsFirst with financial, payroll and information technology services for a fee and is the accountable partner.

Society for the Involvement of Good Neighbours (SIGN)

SIGN is a private non-profit corporation located in Yorkton in partnership with local agencies and organizations to develop and deliver needed services to area residents. Sunrise Health Region contracts with SIGN for services, with an annual service agreement that sets out the budget and terms and conditions of the services provided.

Emergency Medical Services

Sunrise Health Region provides emergency medical services, ambulance services, and first responder services to communities in the health region by a combination of contract ambulance services and region-owned services. The ambulance services in the region are:

Privately contracted:

Canora Ambulance Care
Crestvue Ambulance Services (Yorkton and area)
Duck Mountain Ambulance Care (Kamsack, Norquay and area)
Preeceville Ambulance Service
Shamrock Ambulance Service (Foam Lake and area)

RHA owned and operated:

Esterhazy Emergency Medical Service
Ituna Emergency Medical Service
Langenburg Emergency Medical Service
Melville Emergency Medical Service

Affiliated Health Care Organizations: St. Paul Lutheran Home, Melville; St. Peter's Hospital, Melville; St. Anthony's Hospital, Esterhazy

Affiliated with Sunrise Regional Health Authority are three faith-based facilities. St. Paul Lutheran Home is a 128-bed long-term care facility; St. Anthony's is a 22-bed hospital; and St. Peter's is a 30-bed hospital. (St. Paul and St. Peter's are located together with the Saul Cohen Centre and community-based services in Melville, as part of the Melville District Health Centre). *The Regional Health Services Act* defines the financial and operational relationship of health regions and affiliates. Governed by its own Board of Directors, each affiliate appoints a facility administrator to oversee the facility's staff and management team. The three affiliates and Sunrise Health Region have a very close, and almost completely integrated, management team. The affiliates have chosen a relationship whereby they follow all policies and procedures of the region (that do not infringe upon the faith-based mandates of the

organizations); human resource, finance and operational support services are fully integrated. The Sunrise Health Region and its affiliate partners produce a consolidated financial statement each year.

One of Sunrise Health Region's major accomplishments is the highly cooperative, successful, and proactive relationship with these affiliated health care organizations including being part of shared services agreements.

Health Foundation

The Health Foundation is an independent community organization, managed by a volunteer board, and receives no government funding. The Health Foundation works in partnership with donors, the community, healthcare providers and government to raise and invest funds in capital and educational initiatives that will enhance healthcare services in east central Saskatchewan. Sunrise Health Region CEO and a Sunrise Regional Health Authority board member sit on The Health Foundation board.

In 2010 The Health Foundation, was able to enhance the healthcare available to the residents of east central Saskatchewan in the following ways:

- \$236,792 was spent to buy equipment for the heart and stroke initiative.
- \$38,115 was spent to buy patient controlled pain medication pumps.
- \$156,124 in new medical equipment was purchased for the 14 healthcare facilities in Sunrise Health Region outside of Yorkton.
- \$284,000 was raised for the surgical equipment campaign
- The Health Foundation awarded \$18,400 in scholarships to Sunrise Health Region employees to further their education and clinical skills.

First Nations

On reserve health services are a federal jurisdiction; however, Sunrise Health Region continued in 2010 to explore with First Nations communities ways to better connect First Nations people with services available in the health region. The Sunrise Health Region Medical Health Officer connects at the provincial level with the Medical Health Officer for First Nations and Inuit Health. Sunrise Health Region and The Key, Keeseekoose and Cote First Nations continued our contract agreements to provide Home Care services on reserve. An interagency meeting was held in 2010 about alcohol and addictions issues and the developmental aspects of the methadone treatment clinic in Kamsack. Representatives from the Sunrise Health Region Women's Wellness Centre met with Yorkton Tribal Council representatives and visited some of the First Nation communities to explore development of on-reserve physician and nurse practitioner clinic days to improve access for First Nations women.

Governance and Transparency

As authorized by the *Regional Health Authorities Act*, the provincial government appoints to each region a 12 member governance body and names a chairperson and vice chairperson. The "Sunrise Regional Health Authority" (RHA) governs Sunrise Health Region, which is the formal title. Often this governance body is referred to as the "Board" or the "board members". In February 2009, Health Minister Don McMorris announced appointments to Sunrise Regional Health Authority extending to January 27, 2012. Resigning from the board in 2010-11 were Patricia Hack, Ralph Ager and Lawrence Wegner.

Greg Kobyłka, Chairperson, of Yorkton; has served from November 2004 to present

John Nightingale, Vice Chairperson, of Esterhazy; served from 2002 to 2006 and returned for a second term February 2009 to present

Lawrence Chomos of Esterhazy; has served from March 2007 to present

Patricia Hack of Foam Lake; has served from March 2007 to September 30, 2010

Janet Hill of Yorkton; has served from April 2002 to present

Dr. Walter Streelasky of Melville; served from May 2006 to present

Ralph Ager of Preeceville; served beginning February 2009 to April 20, 2010

Doris Kopelchuk of Canora; has served from February 2009 to present

Isabel O'Soup of Norquay; has served from February 2009 to present

Dave Schappert of Langenburg; has served from February 2009 to present

Jo-Anne Seib of Yorkton; has served from February 2009 to present

Lawrence Wegner of Yorkton; has served from February 2009 to May 31, 2010

The RHAs in Saskatchewan each have representation on the provincial Governance Committee, which plans board education events. The Governance Committee developed a provincial governance manual used by the health regions as a resource of best practices in healthcare governance.

Communication with the Minister of Health and Deputy Ministers of Health occurs through a variety of methods including face-to-face meetings. On behalf of the Sunrise Health Region the Board Chairperson and Chief Executive Officer represent the region at these meetings several times a year.

Chairperson Greg Kobyłka is the Sunrise Health Region representative to Saskatchewan Association of Health Organizations (SAHO). Kobyłka also currently holds the position of Chairperson on the SAHO Board of Directors.

The Sunrise Regional Health Authority and Executive Leadership Team took part in several Strategic Planning sessions in 2009 and 2010 and the RHA approved the Sunrise Health Region 2010-2013 Strategic Plan on May 5, 2010.

Public Transparency

The dates, times and locations of all public RHA meetings are listed on the health region's web site. Members of the public and area journalists are welcome to attend and observe the meetings. They can also contact the region and request to be included on the meeting agenda and make presentations to the RHA. All decisions of the RHA must be made during meetings open to the public.

Once approved, the RHA posts minutes of its meetings on the web site. The minutes are public documents, as are the strategic plan and this annual report. Hard copies of the above can be obtained at the region's administrative office in Yorkton. Subsequent to all RHA meetings, the Region distributes, to staff and to all local media outlets, a newsletter summarizing the meeting's highlights. The targeted timeframe for distribution of the *BoardBrief* is 72 hours after each meeting's completion.

Community Health Advisory Committees Six geographically based Community Health Advisory Committees (CHACs) met jointly in June and met individually in November/December, 2010. An action template was incorporated in the Sunrise Regional Health Authority meetings with recommendations from the Community Health Advisory Committee (CHAC) meetings held in November and December 2010. A subcommittee of the RHA met in January and February 2011, to review the minutes of CHAC meetings, Terms of Reference and structure of the CHACs. In March a plan to restructure the CHACs was approved including changing the Terms of Reference to reflect a strategic purpose to address the health needs of their communities. Enhancements will be made to create more effective two-way communication. Appointees chosen will reflect a diversity of ages, gender, ethnicity, geographic backgrounds, municipal governments and patient advisors with a broad community perspective on health matters. The number of geographically defined CHACs will be reduced to three, with up to 15 members each. At least three times per year meetings will occur including one plenary meeting. Public knowledge of the role of the CHACs will be increased.

The purpose of these committees is to provide the Sunrise Regional Health Authority with community input and advice respecting the provision of health services. CHACs provide advice to the RHA in the areas of program and service development and delivery, health issues, needs and priorities, access to health services, and promotion of health. CHAC members are members of the public appointed by the Regional Health Authority. Prospective members may be self-recommended or by existing CHAC members, community groups or individuals, and are expected to complete a declaration of interest.

CHAC Committees:

Esterhazy/Langenburg & Area - Judith Brown (Tantallon), Mildred Danylko (Calder), Monica Roussin (Round Lake), Ruth Swanson (Churchbridge)

Foam Lake/Theodore & area - Ken Kaban (Foam Lake), Nicholas Lastiwka (Theodore), Marlene Wunder (Foam Lake)

Melville/Ituna & Area - Bernie Bereziuk (Melville), Beatrice Boychuk (Ituna), Anthony Huchabay (Melville), Marlene Manastyrski (Melville), Elfriede Piller (Neudorf), Mark Stoll (Melville), Louise Thompson (Duff)

Yorkton & Area - Cliff Bergman (Springside), Ted Deneschuk (Yorkton), Peter Hay (Yorkton), LuAnne Malinowski (RM of Insinger), Juanita Polegi (Jedburgh), Ella Sernowski (Yorkton), Pamela Sorenson (Yorkton), Murray Williams (Yorkton), Robert Wilson (Saltcoats), Maryann Zuk (Yorkton)

Kamsack/Canora/Invermay & Area - Viola Bell (Invermay), Darlene Graham (Invermay), Michael Kaminski (Invermay), Nicole Monchamp (Rama), Eugene Prychak(Rama), Fran Uhryn (Canora)

Preeceville/Sturgis/Norquay & Area - Hazel Arnie (Preeceville), Judy Blahay (Preeceville), Elaine Christopherson (Sturgis), John Davis (Stenen), Patricia Kachman (Hyas), Ken Mitchell (Preeceville), Peter Olinek (Preeceville), Don Olson (Sturgis), Jay Prekaski (Norquay)

In addition to the Community Health Advisory Committees, the health region also has public/external participants on the Regional Palliative Care Committee, Regional Spiritual Care Committee, Regional Ethics Committee and Home Care Quality Improvement Committee. There are also public/external participants on several of the health region's accreditation teams and emergency planning committees.

Administrative Leadership

Reorganization of the administrative functions of Sunrise Health Region occurred in 2010-11 for several reasons. CEO Joe Kirwan retired in August, 2010. Suann Laurent, Senior Vice President of Health Services, accepted the CEO (interim) position and has continued in this capacity to the present. The Sunrise Regional Health Authority expects to fill the permanent CEO position early in the summer of 2011. In 2010-11 the administrative footprint of the organization was reduced by \$660,000. The organizational chart on the next page shows the Vice President portfolio for each of the various functions of the region. Functions preceded by an asterisk (*) were transferred to the corresponding portfolio in 2011.

Our Region

Demographics and Other Factors

In 2010 Sunrise Health Region had a total covered population of 56,807, an increase of only one person from what was reported in 2009. The source for this information is the Saskatchewan Ministry of Health 2010 Covered Population document. The full document is available on the Ministry of Health website www.health.gov.sk.ca/covered-population-2010. In 2010 the Provincial Health Registration System was updated and now tracks population previously aligned with rural municipalities by the correspondence address; unless the resident has identified to health registration a residence address. It is not reasonable to compare population breakdown between 2009-2010 because of this provincial system update. It is important to note that if a rural person applying for a health services card supplied only a correspondence address, their residence will be tracked to the community where they receive their mail, not to their rural municipality. Persons wishing to apply for a health service card, or who wish to update their residence address should contact the **Health Registration Branch** by calling 1-800-667-7551 or by intranet at www.health.gov.sk.ca/how-to-register.

Covered Population Statistics	2010	% of Total Pop
Yorkton	19,588	34 %
Melville	4,621	
Esterhazy	2,827	
Canora	2,501	
Kamsack	2,106	
Foam Lake	1,433	
Preeceville	1,383	
Langenburg	1,321	
	35,780	62.99%
69 smaller towns, villages, hamlets and RMs	19,258	33.90%
Key, Cote, Keeseekoose First Nations	1,769	3.11%
TOTAL	56,807	100 %

A key characteristic of the health region's population continues to be a population significantly older than the provincial average; its population can be appropriately described as the *oldest* in the province. Of the health region's population 21.5% are over age 65 (provincially, 14.2%), while 11.7% are over the age of 75 (provincially, 7.4%).

Other population characteristics from Statistics Canada 2006 data: the total aboriginal population in Sunrise Health Region as 8.5%, the average income is \$26,889, the long-term unemployment rate is 2.3%, and 50.4 % of the population are post secondary graduates (includes certificates, diplomas and degrees). The Statistics Canada census in 2010 will provide newer information for the 2011-12 annual report as will the "Provincial Health Status" report to be released in June 2011.

As of March 31, 2011 Sunrise Health Region employed 2,847 people or 5% of the region's population and 444 employees (15.6%) will be eligible for retirement by December 31, 2011.

Health Status and Outcome Indicators

** Please refer to source documents for details on the indicators, the sources for their calculations and methodology. Source data for Statistics Canada can be found at www.statcan.gc.ca Some of the health status data in this report is dated. In 2011-12 census data should be updated. A province-wide health status report is currently in the works.

Infant Mortality

Sunrise has a low infant mortality rate relative to the provincial average. Factors that influence infant mortality rates include: effectiveness of pre-natal care, maternal education, drug, alcohol and tobacco use of expectant mothers, and diet/nutritional awareness of expectant mothers. Infant mortality is closely related to low birth weight rates. Sunrise has among the lowest average rate of low birth weight babies in the province. This data was collected between 2001 and 2005 and was reported in the Saskatchewan Prevention Institute "Infant Mortality in Saskatchewan" study, February 2010.

	Sunrise Health Region		
	SHR	Sask	Range
Infant Mortality, per 1,000 Live births (2001-2005)	4.54	8.3	3.72 - 15.34

Hospital Standardized Mortality Ratio

In a national report released December 10, 2009 Sunrise Health Region was identified as having the lowest Hospital Standardized Mortality Ratio (HSMR) of health regions reported and with palliative cases excluded. The Canadian Institute for Health Information (CIHI) report studies the number of deaths in hospitals across Canada. Data was collected for all hospitals in the Sunrise Health Region. CIHI standardized the data it collects adjusting for several factors that may affect in-hospital death rates such as age, sex, diagnoses and admission status.

A mortality ratio of 100 is the Canadian average. A ratio of less than 100 indicates results better than the national average. The HSMR for Sunrise Health Region is 70.

Life Expectancy

Residents of Sunrise Health Region have a life expectancy very close to the provincial average, slightly higher than the provincial average for women and slightly lower for men. Average life expectancy for a population is influenced by socio-economic factors such as education and income levels, for which Sunrise Health Region compares poorly with the province as a whole. Other factors that influence life expectancy include obesity, being overweight, and level of physical activity. The health region compares poorly with the provincial average for these factors. Life expectancy data was last collected by Statistics Canada in 2001.

	SHR	SASK	CANADA
At Birth, Male	75.6	76.2	77
At Birth, Female	82.2	81.8	82
At 65, Male	16.6	16.9	17
At 65, Female	20.8	20.9	20.5

Overweight, Obesity and Physical Activity

Sunrise Health Region has significantly higher rates of overweight people, higher obesity rates and lower rates of physical activity than the provincial average. These factors interact, and are risk factors for many chronic illnesses such as diabetes and heart disease. Because overweight and obesity were measured in the population 20-64 years of age, and physical activity in population ages 12 and over, lower rates in Sunrise may be due to the fact that we have proportionately more people ages 45 and over, and especially ages 65 and over, compared to other parts of the province. Statistics Canada collected this data in 2005.

	SHR	SASK	CANADA
Overweight (BMI 25.0 – 29.9)	44%	34.1%	33.8%
Obese (BMI > 30.0)	27%	25.6%	17.2%

	SHR	SASK	CANADA
Physical Activity – active/moderately active	45.6%	48.7%	50.6%
Physical Activity - inactive	54.4%	51.3%	49.4%

Self-reported Health Status

The percentage of people in Sunrise Health Region (SHR) who report their health as either very good or excellent is significantly below the provincial average, and the lowest of all health regions. Self-reported health status can be influenced by age (Sunrise Health Region has the highest percentage of people over the age of 65 and over the age of 75, in the province) and socio-economic status (Sunrise is below the provincial average for income level and educational attainment). The data for this indicator was collected in 2001.

	SHR	SASK	CANADA
Excellent/Very Good Health	53%	54.1%	58.9%

Major Events & Mitigated Risks

Accreditation - In 2010 Accreditation Canada awarded Sunrise Health Region full accreditation status. To be accredited the health region must demonstrate advancement in six patient safety areas of safety culture, communication, medication use, work life and workforce, infection control, and risk assessment. For each of these areas the region must comply with a set of 31 Required Organizational Practices (ROPs) pre-determined by Accreditation Canada to be best practices applicable to all health care service providers. Every three years Sunrise Health Region undergoes documentation review and on-site survey by Accreditation Canada. Preparing to achieve accreditation is an ongoing commitment by Sunrise Health Region managers, physicians and staff members. Between survey years, 15 quality improvement teams continuously monitor and guide improvements to safety and quality, and the Board receives regular progress reports. It is the application of quality principles and practices by all health care workers, which ultimately leads to accreditation status.

Standardized Hospital Mortality Ratio – Sunrise Health Region continues to have one of the lowest hospital mortality ratios in Canada. A ratio of less than 100 indicates results better than the national average. The ratio for Sunrise Health Region is 70.

Autism Spectrum Disorder - The Children's Therapy program in Sunrise Health Region offers speech and language pathology, physical and occupational therapy for children, and new in 2010, an Autism Spectrum Disorder program. The focus of this new program is to coordinate with existing services and to provide evidence-based programs to meet the needs of each individual. Autism affects the way the brain functions, resulting in difficulties with communication and social interaction and unusual patterns of behavior, activities and interests. Autism includes three related disorders; autistic disorder, Asperger's disorder and pervasive development disorder-not otherwise specified. It is estimated that one in every 166 children in Canada has Autism Spectrum Disorder.

Integrated Stroke Strategy – On September 20, 2010, Minister of Health, Don McMorris, representatives from the Heart & Stroke Foundation of Saskatchewan, The Health Foundation, and Sunrise Health Region gathered with staff and clients to celebrate the success of the Stroke Rehabilitation Unit component. The Ministry of Health provided \$1.6 million to the Sunrise Health Region Integrated Stroke Strategy for the first two years of the pilot project. Project evaluation will be completed by the Heart and Stroke Foundation of Saskatchewan. The integrated rehabilitation program is located in the Jowsey House wing of the Yorkton and District Nursing Home and the adjacent Cornerstone Therapies. In January of 2011, the Stroke Prevention Clinic, a component of the integrated stroke strategy, became operational to aide early detection, education and neurological support. The Stroke Prevention Clinic is located in the Yorkton Regional Health Centre. Sunrise Health Region is able to offer continuity of services in a convenient central location with access to a full range of stroke care professionals including neurological consults, inpatient and outpatient nursing, occupational, physical and speech language therapy, pharmacy and social work. The additional benefits include reduced travel expense for patients and increased access to family support and encouragement. The pilot continues to evolve and ongoing adjustments will occur as the region learns from the clients how best to meet their needs.

Releasing Time to Care™ – initiatives are in progress on both medicine units of Yorkton Regional Health Centre. Saskatchewan is the first province in Canada to implement Releasing Time to Care™. St. Paul Lutheran Home is the first long-term care facility in Saskatchewan to show case how Releasing Time to Care™ can work in a long-term care setting. RTC helps

streamline tasks by utilizing front line leadership and expertise to effect change in their work environment, which releases more time to care for their patients and residents.

Lean process methodology – Lean is a patient-first approach that maps out the current and future state of health service delivery with patients and families needs at the centre. Lean is unique in engaging and empowering health care providers to identify concerns and generate solutions to enhance patient and resident experience and outcomes. A team on the surgical floor is examining the current state of the “surgical value stream” and what the future system should look like to improve the surgical experience for clients. A team at Yorkton and District Nursing Home is using Lean to streamline communications processed for more comprehensive information transfer while increasing productivity. Another Sunrise Health Region team mapped the administrative hiring process and future improvements are being captured as part of a provincial project to enhance administrative process and efficiencies.

RIS/PACS – On January 21, 2011 Sunrise Health Region celebrated the culmination of many years of planning and three years of implementation for the Radiology Information System (RIS) . RIS went live in our region on Nov 16, 2010, and the Picture Archive and Communications System (PACS) went live on December 14, 2010. This project was first envisioned by the Diagnostic Imaging Network (DIN) a committee is comprised of representatives from all of the health regions, the Saskatchewan Cancer Agency and the Ministry of Health. Once implemented throughout Saskatchewan the RIS/PACS systems will connect all medical imaging departments in the province together, on a common network, to provide radiologists with quick access to medical images and the ability to consult with other physicians and specialists through electronic means. It provides authorized physicians with quick access to medical imaging reports to support patient care decisions. Electronic access to test results will eliminate the need for patients to carry information with them to appointments and reduces re-tests when obtaining care in other health regions.

Surgical Safety Checklist – In 2010 Sunrise Health Region laid the groundwork needed to fully implement the use of the surgical safety checklist by March 31, 2011 for all surgeries performed in the region. The World Health Organization created a Safe Surgery Saves Lives Checklist with the goals of improving the safety of patients undergoing surgical procedures around the globe. Using the list the surgical team members verbally confirm information including the patient’s identity, the surgical equipment required, the procedure to be performed and potential complications which may arise from the patient’s health history or condition. Following surgery, the team confirms instrument counts, reviews equipment concerns and unexpected issues encountered during surgery.

Radiology Review Completed – Notifications to 24,990 patients and the re-reads of 68,360 general radiology, CT, mammography and ultrasound exams was completed by June 2010. The region ordered the re-reads in May 2009 as a precaution following a concern expressed by the College of Physicians and Surgeons regarding the work of one radiologist. Radiologists from outside the health region were hired to re-read the exams for a second interpretation. A difference of interpretation was noted in 12,871 exams (18.8%). Of these 10,883 (15.92%) were substantially correct with minor discordances and 1,988 exams (2.91%) were considered to have the potential to affect patient care. This information was provided to the family physician who determined if the patient’s care plan needed adjustment.

National Best Practices – Sunrise Health Region is a partner in the Yorkton Active Transportation Collaborative whose work in 2010 was declared a national “best practice” by the Public Health Agency of Canada. Active transportation includes any form of human-powered transportation, such as cycling or walking.

Youth Developmental Asset Champions – The Mental Health and Addictions Health Promotion Coordinator for Sunrise Health Region led the youth developmental asset champions groups in communities throughout the health region. One of these groups, the Yorkton Alliance of Asset Champions were runners up for the Saskatchewan Municipal Awards in the category of Community Development and Leadership and their work is highlighted as a “best practice” on the on-line resource centre for municipalities located at www.municipalcapacity.ca.

Customer Engagement and Service Expectations Plan – Approved in September 2010. The word “customer” is being used by health regions as a single term to represent the general public, clients, patients and long-term care residents with whom the health system interacts. Our plan aligns with the provincial “Strategic and Operational Directions” and will be rolled out and implemented across the region. The Customer Engagement and Service Expectation Plan includes a four-hour mandatory “customer service” education session for all employees called “Achieving Connection through Excellence”. The curriculum puts into action our organizational values for the purpose of improving the patients’ experience and creating a supportive and quality workplace. The Plan contains new processes to hear and better understand customer needs, and inventories to document progress in applying and adapting services for better patient and family-centered care.

Master Capital Plan – In 2010-11 the health region commissioned a Master Capital Plan which identifies Yorkton Regional Health Centre, and integrated facilities in Canora and Esterhazy as the priority for future capital investment. It can take many years for a capital project to move from planning to construction and there are several steps to be completed including government approval. The first step of needs assessment for the health region is complete. The next step is conceptual planning. Recent renovation and renewal investments in existing structures will sustain the buildings until replaced.

Shared Services – As part of the provincial insurance program the region was able to save \$217,000 in insurance costs negotiated through shared services on behalf of health regions. The Vice President of Corporate Planning, Lorelei Stusek, is a representative on the Provincial Shared Services Senior Leadership Team. Other shared services committees established with Sunrise Health Region representation include materials management, nutrition and food services, laundry, pharmacy, information technology, clinical and human resources. All recommendations related to shared services move forward to the provincial Council of CEOs for decision.

Energy Renewal and Retrofit Project – Phase II – Phase II of the energy renewal and retrofit agreement between Sunrise Health Region, SaskPower and Honeywell has a price tag of \$6.05 million and is on target for completion early in 2011. These energy-saving upgrades are occurring in all 22 health care facilities in the health region. The health region retains the annual energy savings generated by Phase I and Phase II to pay back the loan for the facility upgrades. In 2010-11 a saving of \$810,373 was realized. While tradespersons were in the area working on the Phase II energy project the region seized the opportunity to make additional infrastructure improvements using infrastructure block funding. Work on these projects should be complete in 2011.

Yorkton Flood 2010 – A flurry of communications, public health inspection, and building services activity ensued following a July 1, 2010 flash flood in the City of Yorkton. The flood damaged many homes and businesses in the City of Yorkton. Medical Health Officer Dr. Nsungu, along with the public health team, provided information and assistance to help the public with stress management and safe flood clean up. The flood caused more than \$2 million in damages to the Yorkton Regional Health Centre and the Yorkton & District Nursing Home. Health region

insurance will cover the flood repair costs. The main level and tunnels in the Park Unit and Mental Health buildings, the lower level, laundry, maintenance workshop and staff locker rooms at Yorkton Regional Health Centre and "F" wing resident rooms and crawl spaces at the Yorkton and District Nursing Home were damaged by flood waters and sewer backup. Damage to the health care facilities was lessened thanks to the quick actions of the City of Yorkton and Sunrise Health Region employees. Approximately 55,000 square feet of flooring was replaced after the flood.

Yorkton Regional Health Centre – Major Power Outage – An essential upgrade to the electrical system denied power to the Yorkton Regional Health Centre the evenings of October 13, 2010 and October 27, 2010, casting much of the building into darkness and making bypass of the regional hospital necessary for emergency and obstetrics. The equipment upgraded was original to the building, constructed in 1960, and transfers over 4,000 volts of electricity. Because the transfer switch needed to be removed, refurbished and reinstalled, the health region completed the work in two phases. The building services staff, care providers, and managers coordinated with exceptional skill all aspects of patient care and building repairs resulting in successful completion without incident. A comprehensive communication strategy provided information and guidance and consistently connected neighbouring health regions, Sunrise Health Region staff and physicians, and the public.

Practitioner Liaison Council – Formed on July 16, 2010. Co-chairing the Council is the Board Chairperson and a member chosen by the Council, which consists of the Senior Medical Officer, two board members, the Board Chairperson, the Chief Executive Officer, four physicians, one dentist, one chiropractor, and one midwife appointed by their respective regional practitioner association(s). The Council meets at least semi-annually. The purpose of the Council is to seek, in a spirit of cooperation, to maintain and improve the provision of health services in the health region.

Yorkton Health Recruitment Collaborative – On May 26, 2010 the formation of the Yorkton Health Recruitment Collaborative was announced. Participants in the collaborative represent the City of Yorkton, Sunrise Health Region, Yorkton Chamber of Commerce, Yorkton Tribal Council, The Health Foundation of East Central Saskatchewan, Yorkton Business Improvement District, and local physician representation. The purpose is to attract and retain physicians and other health care professionals to Yorkton. Co-chairperson for this committee is Sunrise Regional Health Authority member Janet Hill.

Physician Recruitment – Six new physicians arrived in the region in 2010-11 and two left the region. Physician recruitment continues to be a priority area of focus for the health region. Family physician resource vacancies continue in Preeceville, Kamsack, Canora, Yorkton, and there is a shortage of specialists in internal medicine and radiology.

2010-11 Budget Roll-out – Sunrise Health Region approved a balanced budget of \$186,986,521 for the period April 1, 2010 to March 31, 2011. The budget included changes to programs and services but no facility closures. Forty full-time equivalent positions were eliminated. Parking fees were implemented across the region. Five facilities in Canora, Melville, Kamsack, and Esterhazy had double occupancy long-term care rooms converted in 2011 to single occupancy. Forty-five double rooms were eliminated reducing the total number of long-term care beds to 854. The implementation of the budget was challenging but by year-end the region had achieved it's goal of a balanced budget. Meetings held throughout the year with staff, physicians, municipal leaders and communities helped explain the changes.

Performance in 2010-2011

The Regional Health Services Act defines the relationship between Sunrise Health Region, the Minister of Health, and the Department of Health. Two new monitoring tools in 2010, the “Balanced Scorecard” and “Strategic Planning Progress Update” track alignment and course correction towards the targets set out in the health region’s “2010-2013 Strategic Plan” and in the Ministry of Health “Accountability Document” and “Strategic Operational Directions”. The indicators in this 2010-11 Annual Report are taken from these monitoring tools. Beside each of the targets shown below a (p) stands for “provincial target” and (r) denotes that this is a target set by the health region.

The health region’s strategic focus is described as four pillars, upon which objective, plans and actions can be built.

Pillar: Health of the Individual

OBJECTIVE:

- 1.1 The health system and its employees/providers are focused on providing high quality excellent service for every customer that is consistent with provincial goals, best practice and customer expectations.**

Percentage of New Staff Oriented and Trained on Service Delivery Expectations
Target = 100% (p)

Achieved - 100% All new hires receive the “Achieving Connection through Excellence” training through the health region’s comprehensive on-boarding General Orientation process.

Percentage of Existing RHA staff Orientated on the Sunrise Health Region Customer Service Delivery Expectations
Target = 100 % (p)

Achieved - 84.6% Of the 2,847 employees of Sunrise Health Region 2,409 have received the training “Achieving Connection through Excellence”.

Percentage with Highest Score for Best Possible Hospital
(Data from the HQC Patient Experience Survey of Inpatient Acute Care)
Target = 50% in each quarter (r)

Not met - Below target in first three quarters. Fourth quarter data is not available at this time.

<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Total/Avg</i>	<i>Target</i>
28.50%	31.70%	21.30%	n/a	27%	50% (r)

OBJECTIVE:**1.2 People have timely access to evidence-based and quality health services and supports.**

Radiology Information System (RIS) and Picture Archive & Communications System (PACS) fully implemented by strategic plan target date and a Provincial RIS upgrade was since completed.

Stroke Prevention Clinic started January 2011 in the Yorkton Regional Health Centre for neurological assessment, diagnostic testing and education to assist persons identified by physicians and nurse practitioners as being at potential risk of stroke.

Lean methodology implemented and on-going on the Yorkton Regional Health Centre surgery ward and at the Yorkton & District Nursing Home. A team on the surgical floor has been meeting to examine what the current state of the "surgical value stream" is and what the future system should look like to improve the surgical experience for clients. A second team is using Lean to streamline communications processed at Yorkton and District Nursing Home for more comprehensive information transfer while increasing productivity.

Releasing Time to Care™ (RTC) projects implemented and on-going at the St. Paul Lutheran Home and on the medicine floor of Yorkton Regional Health Centre. RTC is a program developed in the United Kingdom by the NHS Institute for Innovation and Improvement. It is a patient-centred approach to improving the quality of care. Teams in Sunrise Health Region have begun to use this process to examine their work processes and make changes to reduce the time that caregivers spend on non-patient focused activities so that more of their time can be dedicated to direct-patient care.

Percentage of 3,785 Expected Surgical Cases Completed

Target 100% (p)

Achieved – this target met or exceeded in all but one fiscal quarter.

<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Total/Avg</i>	<i>Target</i>
27%	21%	29%	28%	105%	100% (p)
1,023	795	1,099	1,063	3,980	995 /Q

Priority Level IV Surgeries Performed within 12 months

Target 100% (p)

Near target – just under the target in all four quarters..

<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Total/Avg</i>	<i>Target</i>
94%	97%	98%	98%	97%	100% (p)

CT Scans – Percentage and number of exams including elective patients services completed within 90 days

Target 100% in each quarter (p)

Achieved – this target met or exceeded in each quarter.

<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Total/Avg</i>	<i>Target</i>
108%	101.5%	103.5%	101.8%	104%	100% (p)
1,009	950	969	953	3,881	936 /Q

Patients in acute care awaiting LTC placement (based on the average daily census)

Target = less than 6.5 in each quarter (p)

Not Met - Transition to single occupancy rooms in 2010-11 affected achievement of this target.

<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Total/Avg</i>	<i>Target</i>
11	15	18	11	13.75	< 6.5 (p)

Percentage of Patients Meeting CTAS Wait Time Targets – All Levels

Target = 80% in each quarter (r) (CTAS stands for Canadian Triage and Acuity Scale)

The available statistics at this time are from rural sites only.

Achieved – this target set was met or exceeded in each quarter. This is a good result meaning that patients are being assessed in emergency room in a timely manner.

	<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Avg</i>	<i>Target</i>
Time to Nursing Assessment	97.8%	97.6%	98.9%	97.9%	98.0%	80% (r)
Time to Physician Assessment	96.4%	96.8%	96.2%	88.2%	94.4%	80% (r)

OBJECTIVE:

- 1.3 The system works to continuously improve health care safety and minimize risks.**

Methicillin-resistant Staphylococcus aureus (MRSA) Rate per 1,000 patient days (Acute sites only)

Target = less than 7.3 in each quarter (r)

Achieved – in each quarter Sunrise Health Region had lower that target rates of MRSA.

<i>Apr - Jun</i>	<i>Jul - Sep</i>	<i>Oct - Dec</i>	<i>Jan - Mar</i>	<i>Total/Avg</i>	<i>Target</i>
n/a	0.23	0.23	0	0.115	< 7.3 (r)

Accreditation Canada Required Organizational Practice Compliance

Target = 100% in each quarter (r)

Achieved/Pending – This target was achieved in the third Quarter. Four new Required Organizational Practices were added by Accreditation Canada in January, 2011. Evaluation of the new ROPs will occur in the 2012 Accreditation survey and the region has added these to the target expectation in preparation.

Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total/Avg	Target
90%	90%	100%	89%	92%	100% (r)
28	28	31	35	30.5	35

Percentage of Issue Alerts Reviewed

Target = 100% in all quarters (r)

Achieved – all issue alert were reviewed throughout the region in 2010-11

Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total/Avg	Target
100%	100%	100%	100%	100%	100% (r)
4/4	1/1	1/1	1/1	7/7	7/7

Pillar: Health of the Population**OBJECTIVE:**

- 2.1 Health promotion/protection and disease prevention initiatives improve the health of the population and reduce disparities.**

Hospital Standardized Mortality Ratio (HSMR)

Target = less than 75 (p)

Achieved – HSMR below target in recent years and continues to be one of the lowest in Canada

2008-09	2009-10	2010-11	Targets
62	70	n/a	< 75 (p)

Immunization rate for 2 year-old children

Target = 82% (r)

Near target – Immunization rates are not yet available for 2010-11 but in 2009-10 80.5% of 2-year-old children in the region were immunized.

2008-09	2009-10	2010-11	Targets
77.9%	80.5%	n/a	82% (r)

HPV immunization rate for grade 6

Target = 82% (r)

Near target – Immunization rates are not yet available for 2010-11 but in 2008-09 the target for Human Papilloma Virus (HPV) was exceeded dropping slightly in 2009-10 to just below the target.

2008-09	2009-10	2010-11	Targets
67.0%	61.0%	n/a	63% (r)

Percentage of LTC residents who receive flu vaccine

Target = 85% (r)

Not met – In 2010-11 the percentage of long-term care residents who received influenza vaccine dropped to the lowest rate in three years.

2008-09	2009-10	2010-11	Targets
84.9%	91.6%	83.9%	85% (r)

Percentage of health workforce who receive flu vaccine

Target – 60% (r)

Not met – In 2010-11 the percentage of employees who received influenza vaccine dropped to the lowest rate in three years.

2008-09	2009-10	2010-11	Target
42.7%	41.7%	38%	60% (r)

OBJECTIVE:**2.2 Long-term strategies that address the social factors that impact people's health.****Public Health Nursing**

DTaP-Hib-Polio vaccine coverage in two year olds in 2009 – 2010 – See note (*) Provincial average is 70%	73%
MMR vaccine coverage in two year olds in 2009 – 2010 – See note (*) Provincial average is 86%	87%
Men-C vaccine coverage in two year olds in 2009 – 2010 – See note (*) Provincial average is 86%	87%
Varicella vaccine coverage in seven year olds in 2009 – 2010 – See note (*) Provincial average is 82%	82%
MMR vaccine coverage in seven year olds in 2009 – 2010 – See note (*) Provincial average is 94%	91%
Diphtheria vaccine coverage in seven year olds in 2009 – 2010 – See note (*) Provincial average is 78%	81%
Men-C vaccine coverage in seven year olds – See note (*) Provincial average is 85%	85%
Proportion of mothers of new born babies vaccinated with Tdap in 2010 – 2011 as part of the pertussis “cocooning strategy”	72%
Proportion of fathers of new born babies vaccinated with Tdap in 2010 -2011 as part of the pertussis “cocooning strategy”	26%

(*): The most recent vaccine coverage rates provincially available are for 2009 – 2010.

Public Health Inspection

Precautionary drinking water advisories (PDWA) / Emergency boil water orders (EBWO) issued	7
PDWA / EBWO remaining in effect	33

Dental Health Education

Participation rate in the school based mouth rinse program	96%
Number of children seen at Public Health varnish clinics	933

2.3 Community involvement and engagement fosters a culture of individual responsibility for one's health.**Community Education**

Weekly nutrition newspaper columns locally prepared	25
Maximum monthly visits to the SHR website in 2010 – 2011	8,000
Number of downloads from the SHR website:	
• Vaccination information sheet	1,465
• Fact sheet on mold	1,206
• Seasonal flu clinic schedule	968
• “vaccination myths”	855
• H1N1 consent form	754
• Seasonal flu information	262

Most visited Public Health Department web pages	
Vaccination	1,515 hits
Connect to healthy choice	5,049 hits

Public Health Nursing

Total number of prenatal classes provided in 2010	71
Number of one on one prenatal teachings to mothers who missed prenatal classes	21
Total number Child health clinics (CHC) 2010	507
Total number of CHC appointments in 2010	4,062
Total number of CHC no shows in 2010	851
Number of clients seen in international travel clinics in 2010 – 2011	1,177

2.4 Interagency/intersectoral collaboration focuses on improving children's health.

The Mental Health and Addictions Health Promotion Coordinator for Sunrise Health Region led youth developmental asset champions groups in communities throughout the health region in 2010-11.

Dental Health Education

Number of schools participating in school based fluoride mouth rinse program	22
Number of participants in school based fluoride mouth rinse program	2,981
Participation rate in the school based mouth rinse program	96%
Number of children seen at Public Health varnish clinics	933

Pillar: Providers

OBJECTIVE:

3.1 Health service providers, leaders, managers and staff have a personal commitment and ownership in creating and working in a caring, respectful and high performance environment.

Long-term care Provincial Virtual Falls Collaborative has begun. Materials provided in the Falls Initiative SharePoint site bring in provincial resources as well as material in the Safer Health Care Now bundle to build Sunrise Health Region resources.

Sunrise Health Region participated in March of 2011 in the Employee Engagement Survey, a provincial initiative undertaken by all health regions. The results of this survey will be shared with our employees in the fall of 2011.

Community partnerships established to advance recruitment of aboriginal applicants and participation on a local Labor Force Strategy network committee which includes Yorkton Tribal Council, Saskatchewan Indian Institute of Technology and Saskatchewan Indian Training Assessment Group Employment Opportunity Officer. This group is researching a local Interprovincial Association of Native Employment. Sunrise Health Region collaborated with the Dumont Technical Institute and Cowessess Campus of Southeast College to offer work placements and practicums. Aboriginal Awareness Training has been attended by 83.95% of employees and all new hires receive this training as part of their general orientation to Sunrise Health Region.

OBJECTIVE:**3.2 The health system has safe, supportive and quality workplaces.**

The Sunrise Health Region workforce retention officer has initiated a provincial networking group with other health regions for the purpose of sharing initiatives and learning from each other successful initiatives to reduce sick time and wage-driven premiums.

Paid sick leave hours per full-time equivalent. (FTE = 1,950 hours of work)
Target = 87.72 (p)

Not met - Fourth quarter statistics, although an improvement over the 2009-10 results (95.75 paid sick hours per paid FTE) are still over the Provincial target.

Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total	Target
22.01	20.00	24.68	26.15	92.84	Total = - 7% (p) 87.72

The graph below shows the trend for number of paid sick leave hours per full-time equivalent and by union affiliation. OOS (Out-of-Scope - non-unionized) and HSAS (Health Sciences Association of Saskatchewan) were the only two affiliations to meet the target of reduced sick leave hours.

Union Affiliation	Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total
CUPE	23.95	22.02	27.08	27.91	100.96
SUN	19.83	19.68	23.69	24.99	88.19
HSAS	18.21	13.56	15.70	22.10	37.80
OOS	11.79	7.14	11.61	16.10	46.64

Wage driven premium hours per FTE

Target = 51.71 (p)

Not met - The largest increase in premiums is within the SUN classification. While the region saw improvements from 2008-09 to 2009-10 with the aggressive recruitment of nurses from the Philippines and 30 positions from the SUN Partnership, the transition for many from casual to full-time work reduced staffing resources to cover relief and temporary vacancies. Another contributing factor was the increased Average Daily Census at Yorkton Regional Health Centre.

Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total/Avg	Target
13.11	17.01	15.43	17.54	63.09	Total = - 10% 51.71 (p)

The graph below shows the trend for number of wage-driven premium hours (overtime and other premiums) per full-time equivalent and by union affiliation.

Union Affiliation	Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total
CUPE	12.32	16.48	13.86	14.25	56.91
SUN	22.42	27.14	27.8	37.38	114.74
HSAS	6.33	6.78	7.97	8.46	29.54
OOS	0.17	0.42	0.38	0.17	1.14

Workers Compensation Board Claims

Target = less 10% (p)

Not met - Sunrise Health Region saw improvement in WCB performance as the number of lost time WCB claims per 100 FTEs has decreased, although remains above the provincial average of 7.08. The duration/length of our WCB claims continues to be significantly higher than the provincial average of 354.46.

	Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	Total/Avg	Target
# WCB time lost days per 100 FTE	147.76	143.67	188.03	169.13	648.59	-10% (p)
Target = March 31, 2011						457.94
WCB lost time injury claims per 100 FTE	2.27	1.74	2.32	1.39	7.72	-10% (p)
						7.6
# of Reportable Incidents	1	1	1	2	5	0

The number of lost-time Workers Compensation Board claims rose slightly in 2010-11 from 7.48 to 7.72.

OBJECTIVE:

- 3.3 The health sector has a highly skilled, professional and diverse workforce with a sufficient number and mix of service providers, leaders, managers and staff.**

Achievement of SUN Partnership (FTE)

Target = 387.53 (r)

Near Target – The regional goal is to achieve 100% of target. The provincial expectation is that the region achieves 75% of target. Sunrise Health Region exceeded its goal in the first two quarters and was well above the provincial expectation throughout the year.

Apr - Jun	Jul - Sep	Oct - Dec	Jan - Mar	10-11 Total	Target
390.45	388.16	386.82	380.44	385.25	387.53 (r)

The chart below shows the target set for Sunrise Health Region in the provincial Accountability Document and the actual number of SUN straight time full time equivalent (FTEs) for the past four years. SUN straight time FTEs is the calculation of full-time equivalents based on worked regular hours; it does not include overtime or premium hours.

Sunrise Health Region actively recruits in all areas.

As of March 31, 2011, the number of employees by union affiliation was:

Canadian Union of Public Employees (CUPE) 2,066

Health Sciences Association of Saskatchewan (HSAS) 150

Out of Scope/non-union (OOS) 141

Saskatchewan Union of Nurses (SUN) 490

All employees 2,847

The Canadian Union of Public Employees (CUPE) is the largest union in Sunrise Health Region. Sunrise Health Region does not have any employees represented by the unions SGEU, SEIU or RWDSU.

Pillar: Sustainability

OBJECTIVE:

4.1 There is strategic and operational alignment of priorities within the health system and with the goals and priorities of Government.

The 2010-2013 Strategic Plan of Sunrise Health Region fully aligns with the priorities and direction of the Ministry of Health "Strategic and Operational Direction". Two new monitoring tools in 2010 were developed, the "Balanced Scorecard" and "Strategic Planning Progress Update", to track alignment and course correction towards the targets set out in the health region's 2010-2013 Strategic Plan and in the Ministry of Health Accountability Document and Strategic Operational Directions. The indicators in the Sunrise Health Region 2010-11 Annual Report are taken from these monitoring tools.

OBJECTIVE:

4.2 The health region has the required operating resources, equipment, capital and electronic infrastructure.

Master Capital Plan

In 2010-11 the health region commissioned a Master Capital Plan. Suann Laurent, Chief Executive Officer (interim) and Lorelei Stusek, Vice President of Corporate Services, initiated discussions in the spring of 2011 with the mayors and community representatives and with the Health Foundation to move forward conceptual planning for Yorkton Regional Health Centre, and integrated facilities in Canora and Esterhazy. The Master Capital Plan identified these three facilities as the priority for capital investment to support future health services. It can take many years for a capital project to move from planning to construction and there are several steps to be completed. The first step of needs assessment for the health region is complete. The next step is conceptual planning. Recent investments for renovation and renewal of existing structures will sustain these buildings until replaced.

Capital Improvement Projects

In 2008-09 the Ministry of Health allocated life safety/emergency and infrastructure funding of \$8 million to Sunrise Health Region. This funding arose for infrastructure needs identified in the 2008 VFA Canada study. Seventy-five percent of the funding had been spent by March 31, 2011 and significant improvements in infrastructure have occurred. This work will continue in 2011-12 until completion of all projects identified and funded by the life safety/emergency and infrastructure funding. The chart below details the projects started or completed in 2010-11.

Life Safety/Emergency & Infrastructure Projects (VFA)		
Canora Gateway Lodge		
Main Entrance Digital Mobility	\$ 19,436.81	in progress
Canora Hospital		
Nurse Call System & Patient Wanderguard	\$ 92,354.13	in progress

Life Safety/Emergency & Infrastructure Projects (VFA)	<i>continued</i>	
Centennial Special Care Home Esterhazy		
Nurse Call Replacement	\$ 84,801.88	complete
Roof Heat Tape	\$ 9,157.88	in progress
Patient Wanderguard	\$ 8,377.23	complete
Foam Lake Jubilee Home		
Window Replacement	\$ 87,472.55	complete
Invermay Health Centre		
MUA Replacement	\$ 82,980.45	in progress
Ituna Pioneer Health Care Centre		
Patient Wanderguard Replacement	\$ 15,564.67	complete
Kamsack Hospital		
Flooring Replacement	\$ 4,697.68	in progress
Kamsack Nursing Home		
Window Replacement	\$ 142,478.25	complete
Flooring Replacement	\$ 21,036.91	complete
Fall Arrest	\$ 2,760.85	in progress
Patient Wanderguard	\$ 35,000.00	estimate
Lakeside Manor Care Home		
Patient Wanderguard	\$ 35,327.00	complete
Langenburg Health Care Complex		
Window Replacement	\$ 34,006.71	complete
Nurse Call Upgrade	\$ 68,883.18	complete
Fire Protection	\$ 9,703.54	in progress
Roof Replacement	\$ 200,000.00	estimate
Norquay Health Centre		
Patient Wanderguard	\$ 38,094.05	in progress
Emergency Generator Replacement	\$ 93,854.71	complete
Region		
Fall Prevention	\$ 10,964.19	complete
St. Anthony's Hospital		
Carbon Monoxide Detection	\$ 11,417.24	in progress
Replace 30 ton Cooling Compressor	\$ 36,674.10	complete
Boiler Replacement	\$ 645,361.19	in progress
St. Paul Lutheran Home		
Air Conditioning System	\$ 102,975.45	complete
Basement Wall Repair	\$ 7,308.00	estimate

Life Safety/Emergency & Infrastructure Projects (VFA)	<i>continued</i>	
Yorkton & District Nursing Home		
Flooring	\$ 69,965.09	in progress
Fire Penetrations	\$ 1,906.84	in progress
Roofing - Standing Seam	\$ 751.33	in progress
Roofing	\$ 175,002.35	in progress
Domestic Hot Water System Replacement	\$ 16,534.79	in progress
Replace Walkways	\$ 9,483.10	in progress
Yorkton Mental Health Centre		
Window Replacement	\$ 100,840.00	in progress
Pedestrian Paving - Ramps	\$ 23,046.00	in progress
Yorkton Mental Health, Park, & Prairie		
Air Rad Upgrade	\$ 175,692.77	in progress
Yorkton Regional Health Centre		
Flooring	\$ 7,380.15	in progress
Transfer Switch Emergency Generator	\$ 66,424.65	in progress
Elevator Replacement	\$ 291,620.02	in progress
Pharmacy Fume Hood Upgrade	\$ 1,991.04	in progress
Decontamination & Negative Air Rooms	\$ 25,936.21	in progress
Rain Water Leader Replacement	\$ 27,838.01	in progress
Boilers	\$ 760,570.79	in progress
Walkways/Ramps/Stairs	\$ 1,476.00	in progress
Cooling Tower Replacement	\$ 244,312.08	in progress
Asbestos Removal and Reinsulating	\$ 84,056.72	in progress
Electrical System Upgrade	\$ 300,380.53	in progress
Roofing - Parapet Cap	\$ 15,000.00	estimate
Yorkton Regional Laundry		
Roofing - Link	\$ 13,722.25	in progress
Compressor Controls - Electrical	\$ 78,532.22	in progress

Financial Overview

The financial indicators below will help to highlight the financial performance and demonstrate how course correction deployed in 2010-11 contained costs and produced a small surplus. The health region budgeted for operating expenditures of \$186,986,521 in 2010-11. Throughout the year, Sunrise Health Region managers submitted monthly variance reports to monitor compliance with budget.

Sunrise Health Region contained costs and performed well with a **year-end surplus of \$1,749,921** of which: **\$114,210** is general operational surplus, **\$825,338** is held for mortgages, and **\$810,373** is savings from the Energy & Facility Renewal Project retained for loan repayments related to the energy retrofit. A change in provincial accounting practice occurred this year so that funds held for mortgage and loan repayment now appear as a combined number in the operational surplus. For comparison purposes, the chart below shows the general operating surplus as per the past reporting practice.

	2007/2008	2008/09	2009/10	2010-11
General Operational Surplus (deficit)	(\$752,820)	(\$1,637,637)	(\$713,389)	\$114,210
Surplus (deficit) as a percentage of actual operating expenditures	-0.50%	-1.0%	-0.37	+ .06
Expenditures in program support funding pool as a percentage of total RHA operating expenditures	4.70%	4.20%	4.13%	4.51%

Year End Financial Comparisons

Business Continuity Plans

Sunrise Health Region has plans in various stages of development for continuance of health services in the event of a major disaster, emergency, labour disruption, and illness outbreak or service interruption.

Work on the Pandemic Preparedness Plan continues and is being adapted using lessons learned during the 2009-10 H1N1 flu pandemic.

The Illness Outbreak Response and Communication Plan standardized illness outbreak responses and guides staff when the Medical Health Officer declares significant illness outbreaks.

The Essential Services Plans are in place to ensure the public is protected from danger to life, health and safety during periods of job action.

Future Outlook and Emerging Issues

The health care team in Sunrise Health Region takes pride in seeing progress and advancements each year. With the financial situation in 2010-11 turned around from deficit to balanced budget, the outlook is bright and grounded in a more secure financial footing. The initiatives undertaken to balance the budget in 2010-11 will continue to help contain costs into 2011-12.

The expectation is that the working age demographic will rapidly grow in the next few years. Recent exploration for oil and potash proves that the area is rich in natural resources. Construction of the Esterhazy potash mine expansion has already begun and will employ another 300 people. Sunrise Health Region must prepare to meet the health needs of our current and future customers.

Judging by the initial community support, there is interest and excitement about conceptual plan development for health facilities. Sunrise Health Region will partner with our communities and our health care team to explore innovative approaches in building design to support future generations. We will take full advantage of this opportunity to envision structures that are cost effective and adaptable to a world of rapidly changing advancements in health care delivery. We fully expect Saskatchewan to lead the world in growth and innovation and Sunrise Health Region will advance that vision as a high performing organization.

The Saskatchewan Surgical Initiative has reduced wait times across Saskatchewan. Sunrise Health Region is proud of the increase in surgery numbers achieved in 2010-11. Our goal is to optimize the surgical experience for our patients and their families. Funding available through the Saskatchewan Surgical Initiative will enhance post-operative and outpatient rehabilitation and covers expanded surgical service costs. Itinerant orthopedic surgery days will reduce travel for people needing minor orthopedic surgery which, as of June 2011, will be delivered in Yorkton. The surgical service expansion will include vascular procedures through partnerships with visiting surgeons. The funds also provide additional home care services to support needs across the continuum, the purchase of equipment, and development of clinical care pathways.

While the region met or exceeded many of the targets set for improvement, some areas continue to be a challenge. The health region will deploy specific strategies to bring the region closer to the provincial average for wage driven premiums, sick leave and injuries. It is necessary for all of us in the health system to work together to decrease our sick time, overtime and workers compensation board claims in order to optimize our performance as a region.

Physician and staffing recruitment received a great deal of attention in 2010-11 with limited success. As noted earlier in this report, 444 employees (15.6%) of our total workforce are eligible for retirement by December 31, 2011. Recruitment and retention will continue to be a major challenge into the future for Sunrise Health Region and, as this is a global issue, we will need to be resourceful in designing health care into the future.

In 2011-12 Sunrise Health Region will begin dialogue around a Rural Health Strategy to enhance access to primary care providers and health promotion and prevention for our rural population.

When people are at their most vulnerable, they come to the health system looking for help. It is incumbent on the health care team to focus all of our words and actions on meeting their needs with kindness, compassion and skill. To do this we must understand the current experience of our customers. In 2011-12 Sunrise Health region will enhance our communication efforts, including the use of digital stories, to hear, understand and learn from our customers about their needs and our customer service.

Management Report

May 31, 2011

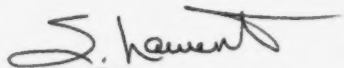

Sunrise Health Region Report of Management

The accompanying financial statements are the responsibility of management and are approved by the Sunrise Regional Health Authority. The financial statements have been prepared in accordance with Canadian Generally Accepted Accounting Principles and the Financial Reporting Guide issued by Saskatchewan Health and, of necessity, includes amounts based on estimates and judgments. The financial information presented in the annual report is consistent with the financial statements.

Management maintains appropriate systems of internal control, including policies and procedures, which provide reasonable assurance that the region's assets is safeguarded and the financial records are relevant and reliable.

The Authority is responsible for reviewing the financial statements and overseeing management's performance in financial reporting. The Authority meets with management and the external auditors to discuss and review financial matters. The Authority approves the financial statements and the annual report.

The appointed auditor conducts an independent audit of the financial statements and has full and open access to the Regional Health Authority. The auditor's report expresses an opinion on the fairness of the financial statements prepared by management.

Suann Laurent

Chief Executive Officer (Interim)

Independent Auditors' Report

To the board of directors
Sunrise Regional Health Authority

Report on the Financial Statements

We have audited the accompanying financial statements of Sunrise Regional Health Authority, which comprise the Consolidated Statement of Financial Position as at March 31, 2011, and the Consolidated Statements of Operations, Changes in Fund Balances and Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

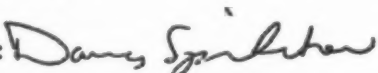

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Sunrise Regional Health Authority as at March 31, 2011, and its financial performance and its cash flows for the year then ended in accordance with Canadian generally accepted accounting principles.

*The accompanying notes and schedules are part
of these financial statements.*

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

1. Legislative Authority

The Sunrise Regional Health Authority (RHA) operates under *The Regional Health Services Act* (The Act) and is responsible for the planning, organization, delivery, and evaluation of health services it is to provide within the geographic area known as the Sunrise Health Region, under section 27 of *The Act*. The Sunrise RHA is a non-profit organization and is not subject to income and property taxes from the federal, provincial, and municipal levels of government. The RHA is a registered charity under the *Income Tax Act* of Canada.

2. Significant Accounting Policies

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles for not-for-profit organizations and include the following significant accounting policies:

(a) Health care organizations

- (i) The RHA has agreements with and grants funding to the following prescribed health care organizations and third parties to provide health services:

Society for Involvement of Good Neighbours Inc.

Yorkton Mental Health Drop In Centre

Note 9(b)(i) provides disclosure of payments to HCO'S and third parties.

- (ii) The RHA has joint service management agreements with all three of its affiliates; St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville. The purpose of the agreements are to share management, contract human resources and finance services to the affiliates.

As a result, the financial statements of St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville are consolidated with the financial statements of the RHA. Transactions and interorganizational balances between the RHA and St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville are eliminated.

Note 9(b)(ii) provides supplementary information regarding the financial position, results of operations and cash flows of the consolidated affiliates.

- (iii) The Health Foundation of East Central Saskatchewan Inc., St. Peter's Hospital Foundation (Melville) Inc. and St. Anthony's Hospital Foundation Inc. (the Foundations) are incorporated under *The Non-Profit Corporations Act* and are registered charities under *The Income Tax Act*.

Under the Foundations' Articles of Incorporation, the RHA or the respective affiliates have an economic interest in the Foundations.

These financial statements do not include the financial activities of the Foundations. Alternatively, note 9(b)(iii) provides supplementary information of the Foundations.

Sunrise Regional Health Authority

Notes to Financial Statements

For the year ended March 31, 2011

2. Significant Accounting Policies - continued

(b) Fund accounting

The accounts of the RHA are maintained in accordance with the restricted fund method of accounting for contributions. For financial reporting purposes, accounts with similar characteristics have been combined into the following major funds:

(i) Operating fund

The operating fund reflects the primary operations of the RHA including revenues received for provision of health services from Saskatchewan Health - General Revenue Fund, and billings to patients, clients, the federal government and other agencies for patient and client services. Other revenue consists of donations, recoveries and ancillary revenue. Expenses are for the delivery of health services.

(ii) Capital fund

The capital fund is a restricted fund that reflects the equity of the RHA in capital assets after taking into consideration any associated long-term debt. The capital fund includes revenues received from Saskatchewan Health - General Revenue Fund designated for construction of capital projects and/or the acquisition of capital assets. The capital fund also includes donations designated for capital purposes by the contributor. Expenses consist primarily of interest on long-term mortgages and amortization of capital assets.

(iii) Community trust and endowment fund

Community trust

The community trust fund is a restricted fund that reflects community-generated assets transferred to the RHA in accordance with the pre-amalgamation agreements signed with the amalgamating health corporations. The assets include cash and investments initially accumulated by the health corporations in the district from donations or municipal tax levies. These assets are accounted for separately and use of the assets is subject to restrictions set out in pre-amalgamation agreements between the RHA and the health corporations.

Endowment fund

Under the terms of the will of the late Dr. Borys Tolczynski, the RHA administers an endowment fund. The interest from this fund is to be used for education and training expenditures which benefit the health district. Unexpended interest each year is added to the endowment principal. The RHA cannot encroach upon the original endowment bequest of \$201,771 plus unexpended interest except in special circumstances.

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

2. Significant Accounting Policies - continued

(c) Revenue

Unrestricted contributions are recognized as revenue in the operating fund in the year received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Restricted contributions related to general operations are recorded as deferred and recognized as revenue of the operating fund in the year in which the related expenses are incurred. All other restricted contributions are recognized as revenue of the appropriate restricted fund in the year.

(d) Capital assets

Capital assets are recorded at cost. Normal maintenance and repairs are expensed as incurred. Capital assets with a life exceeding one year are amortized on a straight-line basis over their estimated useful lives as follows:

Buildings and service equipment	2% to 4%
Land improvements	4% to 10%
Equipment	4% to 25%

Donated capital assets are recorded at their fair value at the date of contribution (if fair value can be reasonably determined).

(e) Asset retirement obligations

Asset retirement obligations are legal obligations associated with the retirement of tangible long-lived assets. Asset retirement obligations are recorded when they are incurred if a reasonable estimate of fair value can be determined. Accretion (interest) expense is the increase in the obligation due to the passage of time. The associated retirement costs are capitalized as part of the carrying amount of the asset and amortized over the asset's remaining useful life.

(f) Inventories

Inventories consist of general stores, pharmacy, laboratory, linen and other. All inventories are held at the lower of cost and net realizable value. Cost is determined on an average-cost basis.

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

2. Significant Accounting Policies - continued

(g) Pension

Employees of the RHA participate in several multi-employer defined benefit pension plans or a defined contribution plan. The RHA follows defined contribution plan accounting for its participation in the plans. Accordingly, the RHA expenses all contributions it is required to make in the year.

(h) Measurement uncertainty

These financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. In the preparation of financial statements, management makes various estimates and assumptions in determining the reported amounts of assets and liabilities, revenues and expenses and in the disclosure of commitments and contingencies. Changes in estimates and assumptions will occur based on the passage of time and the occurrence of certain future events. The changes will be reported in earnings in the period in which they become known.

(i) Financial instruments

The RHA has classified its financial instruments into one of the following categories: held-for-trading, loans and receivables, or other liabilities.

All financial instruments are measured at fair value upon initial recognition. The fair value of a financial instrument is the amount at which the financial instrument could be exchanged in an arm's-length transaction between knowledgeable and willing parties under no compulsion to act. Subsequent to initial recognition, held-for-trading instruments are recorded at fair value with changes in fair value recognized in income. Loans and receivables and other liabilities are subsequently recorded at amortized cost. The classifications of the RHA's significant financial instruments are as follows:

- Cash is classified as held-for-trading.
- Accounts receivable are classified as loans and receivables.
- Investments are classified as held-for-trading. Transaction costs related to held-for-trading financial assets are expensed as incurred.
- Short-term bank indebtedness is classified as held-for-trading.
- Accounts payable, accrued salaries and vacation payable are classified as other liabilities.
- Long-term debt is classified as other liabilities. The related debt premium or discount and issue costs are included in the carrying value of the long-term debt and are amortized into interest expense using the effective interest rate method.

As at March 31, 2011 (2010 - none), the RHA does not have any outstanding contracts or financial instruments with embedded derivatives.

Sunrise Regional Health Authority

Notes to Financial Statements

For the year ended March 31, 2011

2. Significant Accounting Policies - continued

(i) Financial instruments - continued

The RHA is exposed to financial risks as a result of financial instruments. The primary risks the RHA may be exposed to are:

- price risks which include: currency risk - affected by changes in foreign exchange rates; interest rate risk - affected by changes in market interest rates; and market risks - affected by changes in market prices, whether those changes are caused by factors specific to the individual instrument of the issuer or factors affecting all instruments traded in the market.
- Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.
- Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. This may result from an inability to sell a financial asset quickly at close to its fair value.
- Cash flow risk is the risk that future cash flows associated with a monetary financial instrument will fluctuate in amount.

The RHA has policies and procedures in place to mitigate these risks.

(j) Replacement reserves

The RHA is required to maintain certain replacement reserves as a condition of receiving subsidy assistance from Saskatchewan Housing Corporation. Schedule 4 shows the changes in these reserve balances during the year.

3. Capital Assets

	March 31, 2011		2010
	Cost	Accumulated Amortization	Net Book Value
Land	228,908		228,908
Buildings and service equipment	131,467,362	55,803,065	75,664,297
Land improvements	908,366	747,198	161,168
Equipment	28,784,699	18,164,046	10,620,653
Construction-in- progress	1,023,693		1,023,693
	<u>\$ 162,413,028</u>	<u>\$ 74,714,309</u>	<u>\$ 87,698,719</u>
			<u>\$ 85,975,248</u>

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

4. Commitments

(a) Capital asset acquisitions

At March 31, 2011, commitments for acquisition of capital assets were \$295,057 (2010 - \$160,296).

(b) Supplier payments

At March 31, 2011, commitments for outstanding purchase orders were \$3,051,876 (2010 - \$458,429).

(c) Capital projects

Sunrise RHA entered into a guaranteed energy performance savings contract with SaskPower Energy Solutions Company on September 27, 2007, which was completed in the previous fiscal year, an amendment to Phase I was entered into on September 29, 2009. The total cost of the Phase I amendments is \$2,254,647 plus GST. As at March 31, 2011, construction costs incurred total \$2,238,100 (2010 - \$1,618,592) with the remainder of the costs committed for payment in 2012.

Sunrise RHA entered into Phase II of the guaranteed energy performance savings contract with SaskPower Energy Solutions Company on November 17, 2009. The total amended cost of Phase II is \$6,123,204 plus GST. As at March 31, 2011, construction costs incurred total \$4,967,556 (2010 - \$36,773), with the remainder of the costs committed for payment in 2012. Phase II financing of \$6,200,000 was received on April 1, 2010, at a fixed rate of 4.74% over the 13.5-year amortization period.

(d) Operating leases

Minimum annual payments under operating leases on property and equipment over the next five years are as follows:

2012	589,662
2013	709,823
2014	639,727
2015	576,638
2016	413,966
Total minimum lease payments	<u>\$ 2,929,816</u>

(e) Asset retirement obligations

The RHA has not recorded a liability for an asset retirement obligation.

(f) Contracted health service organizations

The RHA continues to contract on an ongoing basis with private health service operators to provide health services in the RHA similar to those provided in the year ending March 31, 2010. Note 9(b) provides supplementary information on Health Care Organizations.

Sunrise Regional Health Authority

8. Patient and Resident Trust Accounts

The RHA administers funds held in trust for patients and residents utilizing the RHA's facilities. The total cash held in trust as at March 31, 2011 was \$184,436 (2010 - \$244,063). These amounts are not reflected in the financial statements.

9. Related Parties

These financial statements include transactions with related parties. The RHA is related to all Saskatchewan crown agencies such as departments, corporations, boards and commissions under the common control of the government of Saskatchewan. The RHA is also related to non-crown enterprises that the government jointly controls or significantly influences. In addition, the RHA is related to other non-government organizations by virtue of its economic interest in these organizations.

Sunrise Regional Health Authority

9. Related Parties - continued

(a) Related-party transactions - continued

In addition, the RHA pays provincial sales tax to the Saskatchewan Ministry of Finance on all its taxable purchases. Taxes paid are recorded as part of the cost of those purchases.

(b) Health-care organizations

(i) Prescribed health care organizations and third parties

The RHA has also entered into agreements with prescribed health care organizations (HCO's) and third parties to provide health services.

These organizations receive operating funding from the RHA on a monthly basis in accordance with budget amounts approved annually. During the year, the RHA provided the following amounts to prescribed HCO's and third parties:

	2011	2010
Yorkton Mental Health Drop In Centre	133,629	132,720
Society for Involvement of Good Neighbours Inc.	<u>287,531</u>	<u>285,109</u>
	<u>\$ 421,160</u>	<u>\$ 417,829</u>

(ii) Affiliates with joint service management agreements

The Act makes the RHA responsible for the delivery of health services in its region including the health services provided by privately owned affiliates. The Act requires affiliates to conduct their affairs and activities in a manner that is consistent with, and that reflects, the health goals and objectives established by the RHA. Further, the RHA provides most of the affiliate's funding. Accordingly, the RHA has the ability to affect the strategic operating, investing and financing activities of the affiliates.

The RHA consolidated financial statements include the accounts of St. Anthony's Hospital, St. Peter's Hospital and St. Paul Lutheran Home of Melville based on the joint service management agreement held with each of the three organizations. The following information, which combines the operating fund and capital fund, is supplementary to those statements.

10. Pension

Employees of the RHA participate in one of the following pension plans:

(a) Saskatchewan Healthcare Employees' Pension Plan (SHEPP)

This is jointly governed by a board of eight trustees. Four of the trustees are appointed by the Saskatchewan Association of Health Organizations (SAHO) (a related party), and four of the trustees are appointed by Saskatchewan's health care unions (CUPE, SUN, SEIU, SGEU, RWDSU, and HSAS). SHEPP is a multi-employer defined benefit plan, which came into effect December 31, 2002. (Prior to December 31, 2002, this plan was formerly the SAHO Retirement Plan and was governed by the SAHO Board of Directors.)

(b) Public Service Superannuation Plan (a related party)

This is also a defined benefit plan and is the responsibility of the Province of Saskatchewan.

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

10. Pension - continued

(c) Public Employees' Pension Plan (a related party)

This is a defined contribution plan and is the responsibility of the Province of Saskatchewan.

The RHA's financial obligation to these plans is limited to making the required payments to these plans according to their applicable agreements. Pension expense is included in Compensation - benefits in schedule 1 and is equal to the RHA contributions amount below.

	2011				2010
	SHEPP**	PSSP	PEPP	Total	Total
Number of active members	2,350	4	34	2,388	2,429
Member contribution rate, percentage of salary	6.60-9.60%*	7.00-8.00%*	5.00-7.00%*		
RHA contribution rate, percentage of salary	7.39-10.75%*	7.00-8.00%*	6.00-7.00%*		
Member contributions	7,836,490	9,593	163,882	8,009,965	6,643,379
RHA contributions	8,776,889	40,002	163,488	8,980,379	7,449,666

In addition to the above plans, the RHA has one employee in the Evangelical Lutheran Church in Canada pension plan whose member contributions were \$2,740 with RHA contributions of \$6,027.

*Contribution rate varies based on employee group.

**Active members include all employees of the RHA, including those on leave of absence as of March 31, 2011. Inactive members are transferred to SHEPP and not included in these results. The member contribution rates changed from 5.85-7.35% to 6.60-9.60% in the previous fiscal year.

11. Budget

The RHA Board approved the 2010-2011 budget plan on June 2, 2010.

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

12. Financial Instruments

(a) Significant terms and conditions

There are no significant terms and conditions related to financial instruments classified as current assets or current liabilities that may affect the amount, timing and certainty of future cash flows. Significant terms and conditions for the other financial instruments are disclosed separately in these financial statements.

(b) Credit risk

The RHA is exposed to credit risk from the potential non-payment of accounts receivable. The majority of the RHA's receivables are from Saskatchewan Health - General Revenue Fund, Saskatchewan Workers' Compensation Board, health insurance companies or other provinces; therefore, the credit risk is minimal.

(c) Fair value

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

- (i) The carrying amounts of these financial instruments approximate fair value due to their immediate or short-term nature:

- Accounts receivable
- Accounts payable
- Accrued salaries and vacation payable

- (ii) Cash, short-term investments and long-term investments are recorded at fair value as disclosed in Schedule 2, determined using quoted market prices.

- (iii) The fair value of mortgages payable and long-term debt before the repayment required within one year is \$20,122,000 (2010 - \$15,016,000) and is determined using discounted cash flow analysis based on current incremental borrowing rates for similar borrowing arrangements, net of mortgage subsidies.

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

12. Financial Instruments - continued

(d) Operating line-of-credit

The RHA has an approved operating line-of-credit of \$15,750,000 (2010 - \$15,750,000) with interest charged at a rate of prime less 0.75%, which is renegotiated annually. The line-of-credit is secured by an assignment of grants and revenues of the RHA. Total interest paid on the line-of-credit in 2011 was \$22,404 (2010 - \$135,684). The line-of-credit was approved by the Minister on October 7, 1998.

The affiliates also have operating lines-of-credit with limits totalling \$650,000 (2010 - \$650,000). These lines-of-credit are secured by an assignment of grants and revenues from the RHA. Total interest paid on these lines-of-credit in 2011 was \$1,032 (2010 - \$738).

13. Interfund Transfers

Each year the RHA transfers amounts between its funds for various purposes. These include funding capital asset purchases and reassigning fund balances to support certain activities.

14. Volunteer Services

The operations of the RHA utilize services of many volunteers. Because of the difficulty in determining the fair market value of these donated services, the value of these donated services is not recognized in the financial statements.

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

15. Community-Generated Funds

Under the terms of the pre-amalgamation agreement, the RHA has agreed to hold community-generated assets in trust. The board established a separate fund for the assets of each trust. Health corporations formerly held these assets before amalgamating with the board. The assets are interest-bearing with the interest credited to the trust balance. The board presently administers \$62,770 (2010 - \$78,398) under these agreements.

Following is the status of the trust funds at March 31, 2011:

Each trust fund has a "trust advisory committee" which is appointed by the various towns, villages, hamlets and rural municipalities served by the pre-amalgamation agency. The trust funds are for the benefit of the ratepayers of the various municipalities and shall be used for health-related purposes. The committees have the power to establish rules and procedures and the majority decision of the committees shall be binding upon the RHA with respect to any use of the trust fund.

16. Energy Renewal Project

Energy performance contracting is a unique program that allows the RHA to implement facility improvements, reduce energy costs, improve health and comfort conditions while contributing to the province's environmental objectives. SaskPower Energy Solutions performed extensive research to establish a baseline of annual cost savings they guarantee as part of this project. The project is expected to provide utility cost savings that will pay for the cost and financing of this project within an established time frame. Any additional savings are calculated and verified by methods established in the contract and are applied to the loan.

Sunrise RHA entered into a guaranteed energy performance savings contract with SaskPower Energy Solutions Company. The total cost of the energy performance contracts is \$14,724,459 plus GST. As at March 31, 2011 construction costs of \$13,552,264 (2010- \$8,689,973) have been financed through term debt facilities with a balance of \$11,746,517 outstanding (2010 - \$6,044,769), which bears interest at a rates of 4.43% - 4.74%. The term debt facility is amortized over a period of 13.5 - 23 years.

Results of the energy renewal project since its inception are:

	2011	2010	Prior	Total
Estimated utility savings	810,373	435,785	370,608	1,616,766
Interest costs	550,424	226,915	179,993	957,332

Sunrise Regional Health Authority
Notes to Financial Statements
For the year ended March 31, 2011

17. Collective Agreements

The HSAS contract expired March 31, 2009, and the proposed settlement has not been agreed to or ratified by the union. The CUPE and SUN contracts are in effect until March 31, 2012.

18. Future Accounting Changes

The Canadian Institute of Chartered Accountants approved an amendment to require Government Not-for-Profit Organizations reporting under Section 4400 of the CICA Handbook to move to reporting under Section 4200 to 4270 of the Public Sector Accounting Handbook. This change is effective for fiscal years beginning on or after January 1, 2012. The impact of this change is expected to be minimal at this point in time.

19. Change in Accounting Policy

Effective for the 2011 fiscal year reporting period, all base funding must all be recorded in the operating fund. Any funds used to pay mortgages in the capital fund must be transferred from the operating fund to the capital fund below the Excess (Deficiency) of Revenues and Expenses line in the Statement of Operations and Changes in Fund Balance. This transaction is recorded as an interfund transfer. This accounting change does not impact the ending comparative statement of financial position, the impact to the comparative statement of operations and changes in fund balances is detailed below:

Effect of Change on 2010 Statement of Operations and Changes in Fund Balances

Previously reported operating deficiency of revenue over expenses	(713,389)
Add: energy renewal savings previously reported as capital revenue	435,785
Add: mortgage funding previously reported as capital revenue	<u>825,338</u>

Restated Operating Fund Excess of Revenue over Expenses	<u>\$ 547,734</u>
--	--------------------------

Previously reported restricted funds deficiency of revenue over expenses	(2,576,122)
Less: energy renewal savings previously reported as capital revenue	(435,785)
Less: mortgage funding previously reported as capital revenue	<u>(825,338)</u>

Restated Restricted Funds Deficiency of Revenue over Expenses	<u>\$(3,837,245)</u>
--	------------------------------

Sunrise Regional Health Authority

Notes to Financial Statements
For the year ended March 31, 2011

20. Comparative Figures

Certain balances for comparative purposes have been reclassified to conform with the current year's presentation.

21. Significant Events

On July 1, 2010 significant flood damage was caused to Yorkton locations in the Sunrise Health Region resulting in significant clean up costs and the necessity for the repair and replacement of some assets. The majority of the costs relating to this damage are reflected in the service contracts expense in Schedule 1. The resulting damages are insured, less the insurance deductible of \$25,000. The amount of the insurance claim has been accrued and is estimated to be \$2,321,172 as of March 31, 2011. This amount is recorded as other revenue in the operating fund. This claim has not been finalized as of March 31, 2011, although management believes the organization's insurance coverage is sufficient to cover estimated losses.
